My combat-related PTSD aggravated an old wound... from when I was 8.

We know soldiers are at increased risk for posttraumatic stress disorder from combat.

But did you know that the risk of PTSD is higher among those servicemen and women who were sexually abused as children?

They put their lives on the line to protect us. But did we fail to protect them as kids?

Facing the harm can take decades. Reform the statute of limitations for child sex abuse.

Pass the Child Victims Act now. Join our petition.
