Fact Sheet

"Love Me Not"
An Anti-Stalking Campaign by the
Los Angeles County District Attorney’s Office
and
Los Angeles Commission on Assaults Against Women

Program Title: "Love Me Not"

Overview: Stalking affects an estimated 1.4 million adults each year in the
United States, and one out of every 12 women. More than half of
all female victims are between 18 and 29 years old. Although
stalking is a gender neutral crime, the National Anti-Stalking and
Harassment campaign (NASH) reports that 95 percent of stalking
victims are women. Stalkers are motivated by a desire to control
or instill fear in their victims.

Program Partnership: Los Angeles County District Attorney’s Office
and Los Angeles Commission on Assaults Against Women

Program Description: A public awareness campaign designed to raise awareness of both
the problem of stalking and resources available for victims.

Unique Aspects of Program: By focusing on universities, the program directly targets the
demographic group that is most frequently victimized by this crime.

The program is countywide.

Combines, for the first time, prosecutorial services with an array of
prevention and safety resources for victims.

Funded by a grant from the State of California.

Goals: To promote prevention and personal safety resources that will help
stalking victims regain control of their lives and take concrete action
against their stalkers.

To deter stalkers by raising awareness of the criminally punitive
consequences of their behavior.
