OBJECTIVES

We want to help you understand:

- The purpose of the Tribal Victim Services Resource Mapping Tool;
- Plan for stakeholder involvement; and
- Details about the Indian Nations Conference.
THE PROBLEM

• American Indians and Alaska Natives (AI/AN) have the highest crime victimization rates in the nation
• AI/AN survivors and others face additional barriers including:
  ➢ Navigating a complicated system that includes federal, state, and tribal jurisdiction;
  ➢ Identifying local available services;
  ➢ Gaps in services to better meet the unique needs of AI/AN survivors of crime and abuse
VISION 21: TRIBAL VICTIM SERVICES RESOURCE MAPPING TOOL

The Office for Victims of Crime of the U.S. Department of Justice has funded the project team to create a web-based resource mapping tool that would:

• Link AI/AN survivors of crime and abuse to services anywhere in the country; and
• Help identify gaps in the network of existing services
VISION 21: TRIBAL VICTIM SERVICES RESOURCE MAPPING TOOL

• In developing this tool, the project team will work closely with stakeholders to:

  - Identify crime victim services available to AI/AN;
  - Understand the needs of AI/AN survivors of crime and abuse;
  - Ensure that the tool captures the breadth of existing information and;
  - Is widely disseminated.
OUR PLAN

1. Collaborate with stakeholders
2. Identify existing services
3. Use information to develop mapping tool
4. Raise awareness of the tool
5. Identify gaps
